SILVIU - ANDREI GLAVAN
WEB DEVELOPER

My short term objective is to land a job as a front-end developer where I can contribute with my skills and knowledge in order to make the web awesome! I am also looking for a company that will offer me the opportunities to challenge myself and where I can learn new technologies and improve my skill set

PROJECTS

www.silviuglv.com
Personal portfolio website powered by jekyll with the awesome help of Sass, JQuery and Gulp.
Layout: CSS Grid
GitHub repo: https://github.com/silviuglv/silviuglv.github.io

www.mybarber.co.uk
A simple barbershop locator made in JS with the help of JQuery library and the Google Places API.
Layout: FLEXBOX
GitHub repo: https://github.com/silviuglv/mybarber

www.davinci.netlify.com
A simple static webpage inspired by a FreeCodeCamp challenge.
Layout: Bootstrap
GitHub repo: https://github.com/silviuglv/DaVinci
